# OFFICERS KILLED WITH BOLOS

Bandit Leaders to Receive the Extreme Penalty-Farmer Recruits ernor Ide's New Plan.

Manila, P. I .- Governor Ide returned after a conference at Tacloban, Island of Levte, with Major-General Wood, Brigadier-General Lee, Governor De Veyra, fifteen presidentes and Colonel Taylor, of the constabulary.

The presidentes promised to support the American authorities and to furnish information that will lead to the extermination of the Pulajanes.

There are various causes for Pulajanism in the Island of Leyte, dating back to Spanish times. The disarming of the municipal police by Governor De Veyra, his political opponents say, caused the recent disturbances.

It is asserted that had the late First Lieutenant John F. James, of the English Infantry, possessed correct information he would not have gone out with a small force.

The fight occurred in the darkness and the troops were the victims of a bolo rush of superior numbers, during which their rifles were of no use. The bodies of Lieutenant Janies, Contract Surgeon Calvin D. Snyder, Privates William J. Gillick and Mathies Zeck have been buried at Tauloban.

Governor Ide has decided to appoint a commission consisting of Governor De Veyra, General Lee, Colonel Taylor and three presidentes to visit the disaffected districts and hold meetings of the town councils to impress the people with the necessity of co-operation in exterminating the Pulajanes.

The outlaw band numbers about 100, and is being greatly increased by forcing peaceful farmers to participate in raids, threatening them with death if they refuse. These re-cruits are armed with bolos, as the real Pulajanes do not trust them with guns.

A special term of the court has been ordered at Tacloban to try the prisoners. It is understood that the leaders will get the extreme penalty of the law, but that the misguided natives will be dealt with leniently.

Governor Ide and General Wood consider that the situation is well in hand and expect no further fighting. It is probable, however, that additional troops will be put in the field temporarily, to establish mountain garrisons. The hotbed of the disturbances covers an area approximatery thirty by twenty miles. Martial law is deemed unnecessary, for General Lee is practically in control.
